

hgc on air Wi- Fi Service

hgc on air Android devices setup procedure

- Below screenshots were captured from an Android 6.0 handset. Note that procedures or interface may vary depends on handset models and / or Android version.

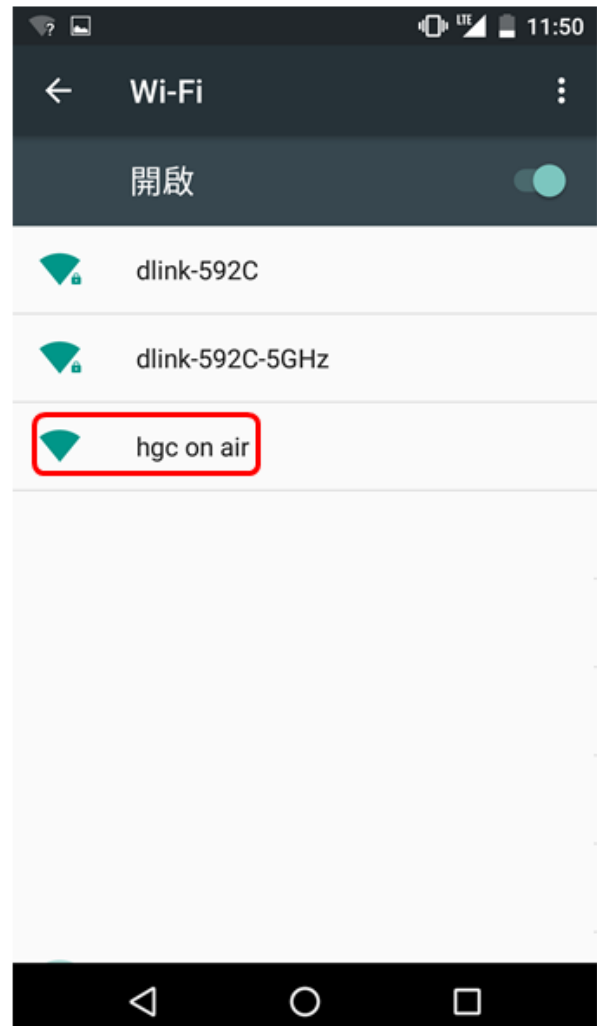

Step 1

Enter "Settings" and enable "Wi-Fi".

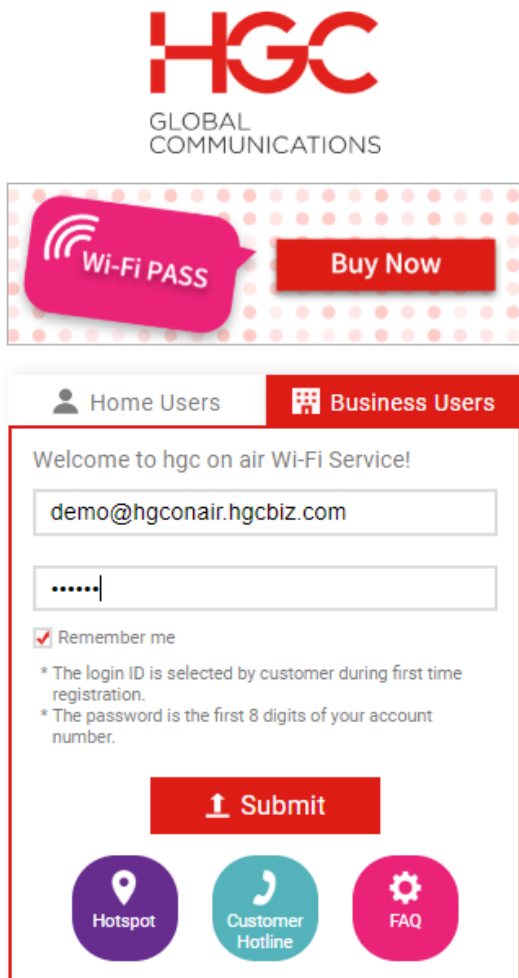

Step 2

Select network "hgc on air" and press "connect".

Step 3

Open the browser of your phone, enter your "Username" and "Password" and click "Submit". You may also check the "Remember me" box if you don't want to input the above information again whenever you connect to "hgc on air" hotspots using the same device.

Step 4

Login success! Now you can enjoy surfing the web via hgc on air Wi-Fi network!
